

# Fast Facts

Healthcare systems, clinicians, and imaging centers are looking for a full suite of medical physics and radiation safety services, as well as deep expertise standardizing processes across organizations. Apex Physics Partners delivers all that and more. The Apex mission is to transform community health and safety by providing comprehensive medical physics and radiation safety solutions.

## COMPANY OVERVIEW

---

Founded in 2019, Apex Physics Partners (Apex) is the largest medical physics services organization in North America.

Through the Apex Physics Support Group, partner physics practices receive an array of support services, including sales, marketing, accounting/finance, human resources, recruiting, information technology, data analytics, vendor management, legal, and insurance.

Apex is backed by [Blue Sea Capital](#), a West Palm Beach-based private equity firm with over \$750 million in assets under management.

## OUR CUSTOMERS

---

Apex serves more than 3,900 customers, including leading health systems, imaging networks, cancer treatment centers, private practices, and research facilities.

## HOW WE'RE DIFFERENT

---

Apex's strategy centers on supporting regional medical physics leaders with the strongest reputations for quality and safety within their communities. Independent medical physics practice leaders and physicists across the U.S. trust Apex to modernize and automate their businesses so they can focus on what they do best: serving their communities and healthcare partners.

## OUR PRACTICES

---

The Apex Practice Group is led by some of the nation's leading technical and diagnostic professionals in the medical physics field. Driven by a patient-first approach, the Apex team offers board-certified medical physicists with expertise in all modalities and virtually every imaging manufacturer to provide comprehensive medical physics and radiation safety solutions.

The Apex network of providers, practice owners, physicists and business experts all collaborate together to address the many challenges facing the medical physics industry today.

Apex counts eight practices in its portfolio and is growing rapidly across the U.S. Examples of Apex's practices include:

- [KGHP](#)
- [Alyzen Medical Physics](#)
- [Advanced Medical Physics](#)
- [Gamma Corporation](#)
- [OMPC](#)
- [Radcom](#)
